

Department of ENT, Goa Medical College, Bambolim – Goa

Information regarding MCI

1. **Nodal Officer** – Dr. Dheeraj Lambor, 982357373, lambor.dheeraj@gmail.com.

c. Teaching Schedule:

1. Otologic Lecture Series: Dr. Dheeraj Lambor

1. Anatomy of the Ear
2. Physiology of hearing and squilibrium
3. Diseases of External Ear
4. Accute Otitis Media
5. Chronic Otitis Media – Tubotympanic type
6. Chronic Otitis Media- Atticoantral disease
7. Complications of chronic otitis media – I (Intracranial)
8. Complications of chronic otitis media – II (Extra cranial)
9. Meniere’s Disease
10. Otosclerosis
11. management of Hearing loss
12. Facial Nerve Disorders

2. Rhinology Lecture Series – Dr. Tiwari and Dr. Carnegie De Sa

1. ANATOMY OF PNS.
2. PHYSIOLOGY OF NOSE & PNS.
3. Allergic Rhinosinusitis.
4. Epistaxis and Management
5. ACUTE SINUSITIS.
6. CHRONIC SINUSITIS.
7. Complications of Rhinosinusitis
8. Endoscopic anatomy of the Nose.
9. Functional Endoscopic sinus surgery.

3. Pharynx Lecture series – Dr. Swati

1. ANATOMY OF ORAL CAVITY AND PHARYNX.
2. ADENOIDS AND OTHER INFLAMMATIONS OF NASOPHARYNX.
3. ACUTE AND CHRONIC TONSILLITIS.
4. TONSILLECTOMY.
5. ANATOMY OF DEEP NECK SPACES.

6. DEEP NECK SPACES INFECTIONS.
7. NASOPHARYNGEAL ANGIOFIBROMA.
8. Obstructive Sleep apnoea

4. Laryngology Lecture Series – Dr. Sandesh

1. Anatomy and Physiology of the Larynx
2. INVESTIGATIONS OF LARYNGEAL DISEASES-DIRECT LARYNGOSCOPY.
3. Benign Vocal cord lesions
3. AIRWAY MANAGEMENT.
4. FOREIGN BODIES –LARYNX AND BRONCHUS
5. DISORDERS OF OESOPHAGUS (foreign bodies/Perforation / Benign Strictures / PV syndrome)
6. Dysphagia causes and management

d. Details of Tutorials taken for Undergraduate.

NOSE

1. Epistaxis
2. Acute Sinusitis
3. Atrophic Rhinitis
4. Rhinoscleroma
5. Foreign Body in nose
6. Facial Fractures
7. Tumors of PNS

EAR

1. Otosclerosis
2. Facial Nerve anatomy and common facial nerve lesions
3. Acoustic neuroma / Glomus tumours
4. Common vestibular disorders – BPPV /Minaers /Labyrinthitis
5. Common ear Surgeries – Myringotomy / Tympanoplasty / Mastoidectomy / stapedotomy

LARYNX

1. Tracheostomy
2. Voice Disorders & Phonosurgery

NECK

1. Occult primary dysphagia
2. Common salivary gland diseases
3. Thyroid neoplasm
4. Cervical metastasis (TNM staging of Head & Neck cancer)
5. LASER in ENT
6. HIV in ENT
7. Radiotherapy of Head – Neck cancers
8. Chemotherapy of Head- Neck cancers
9. Radiological advances in ENT
- 10 X-ray in ENT

e. Details of Seminar conducted in ENT DEPT by Post graduate.

1. Cervical Nerve anatomy I, V ---- Dr. Vinson
2. Cervical Nerve anatomy VII, VIII ---- Dr. Saumyata
3. Cervical Nerve Anatomy IX, X, XI & XII ----- Dr. Aneekha
4. Disorders of Smell ----- Dr. Manu

5. Toxic Goitre & Medullary Carcinoma of Thyroid ----- Dr. Bipin
6. Staging of Angofibroma & Surgical Approach for treatment --- Dr. Sarah
7. Vocal cord paralysis part – I (Etiology & clinical presentation) – Dr. Vinson
8. Vocal cord paralysis part – II (Management) ---- Dr. Saumyata
9. Paragangliomas of head & Neck ----- Dr. Aneekha
10. Vestibular Schwannoma ----- Dr. Manu
11. Hearing Aids ----- Dr. Bipin
12. BAHA & VIBRANT SOUNDBRIDGE - ----- Dr. Sarah
13. Middle ear cleft – Dr. Govind
14. Anatomy of Nose + PNS – Dr. Radhika
15. Anatomy of larynx – Dr. Nabha
16. Anatomy of Salivary Gland – Dr. Sneha
17. Otosclerosis Etiology – Dr. Vinson
18. Otosclerosis Management - Dr. Saumyata
19. Meniere Disease – Dr. Aneekha
20. Physiology of Thyroid gland - Dr. Govind
21. Anatomy of Facial Nerve – Dr. Sneha
22. Physiology of Hearing – Dr. Radhika
23. Surgical Anatomy of Thyroid – Dr. Nabha
24. Benign lesions of larynx – Dr. Manu
25. Assessment of deaf child – Dr. Bipin
26. Post Laryngectomy Rehabilitation – Dr. Sarah
27. Subglottic Stenosis - Dr. Vinson
28. Fungal Sinusitis – Dr. Saumyata
29. Obstructive Sleep Apnoea – Dr. Aneekha
30. Diseases of Tonsil – Dr. Govind
31. Otitis media with effusion – Dr. Radhika
32. Epistaxis – Dr. Sneha
